# VALUE ADDED COURSES

## **Introduction :**

Changing global scenario makes world more modest & needs high levels of lateral thinking and the spirit of entrepreneurship to cope up with the emergent challenges. Many a times, the defined skill sets that are being imparted to students today with Programme Specific Objectives in educational institutions become redundant sooner or later due to rapid technological advancements. No university curriculum can adequately cover all areas of importance or relevance. It is important for higher education institutions to supplement the curriculum to make students better prepared to meet industry demands as well as develop their own interests and aptitudes.

## **Objectives of the Value-Added Course are:**

- ❖ To provide students an understanding of the expectations of industry.
- ❖ To improve employability skills of students.
- ❖ To bridge the skill gaps and make students industry ready.
- ❖ To provide an opportunity to students to develop inter-disciplinary skills.
- ❖ To mould students as job providers rather than job seekers.
