Program Report on Pamphlet Making Workshop

Academic Year-2020-21	
Name of The Program	Pamphlet making Workshop
Date	22/02/2021
Venue	VTCOE Seminar Hall
resource Person	Prof. Waykos. S.S.

Introduction-

Before you learn **how to make a pamphlet**, it is better to understand its uses and importance in marketing and advertising. A pamphlet or a leaflet is a single sheet of paper printed on the front and backside, such as an unbound book. Depending on the design, a brochure folds in half, thirds or fourths. We use pamphlets in many things such as marketing or political campaigning and many other places where you only want to provide information. From here, you can learn to create attractive pamphlets to advertise your business.

Objectives-

Pamphlets can contain anything from information on kitchen appliances to medical information and religious treatises. Pamphlets are very important in marketing because they are cheap to produce and can be distributed easily to customers. Pamphlets have also long been an important tool of political protest and political campaigning for similar reasons.

A pamphleteer is a historical term for someone who produces or distributes pamphlets, especially for a political cause.

Outcome of Event:

The pamphlet has been widely adopted in commerce, particularly as a format for marketing communications. There are numerous purposes for pamphlets, such as product descriptions or instructions, corporate information, events promotions or tourism guides and they are often used in the same way as leaflets or brochures. Due to their ephemeral nature and to the wide array of political and religious perspectives given voice by the format's ease of production, pamphlets are prized by many book collectors. Substantial accumulations have been amassed and transferred to ownership of academic research libraries around the world.
