2. Student teachers view models of successful instructional practices and begin to implement them in their own classrooms. where everyone is an active participant, combining learning and development with practice.

5. Join hands with schools in identifying areas for innovative practice

VTWCOE always tries to prune its students in such a way that they should be able to face every kind of situation in their career. In order to achieve this objective it always encourages students to adopt innovative teaching learning practice. In this regard, the institute jointly conducts discussion sessions with the school principals and comes up with innovative ideas. Institute has conducted discussions with all practicing School where the students got an opportunity to visit the real classroom practices in school through these students and teachers. College of education got an innovative idea.
