### Canteen

The objective of the canteen and meal service is to protect by reducing the risk of foodborne illness, with proper sanitary condition, and preventing adulterated food.

A canteen is a store that sells food and drink at in institution like a camp, college, or military base. A canteen can also be a small container used to carry water to drink.

### Drinking water Sources-

Water purifiers in institutional campus are essential for providing clean and safe drinking water to students, staff and visitors because “ **Precaution is always better than cure**”. Water purifiers are integral to providing a safe and healthy environment on institutional campus. They support the wellbeing of the campus community and contribute to sustainability efforts by reducing the consumption.

## Girls Toilet

They were made clean and safe. A roof was added to protect the girls' privacy and water taps were added so students could wash their hands. For girls growing up in a community where gender inequality still prevents many girls from getting an education and choosing their own futures, the toilets represent even more.
