Tree Plantation

The purpose of tree plantation is to save the endangered environment and to beautify our life. Tree is valuable gifts of nature, they are known as the best friend of human beings. Objective of activity is to raise awareness to the society in the importance of planting and saving trees. Every student of B.Ed. planted a tree in nearby area. As due to pandemic is it not possible to organize group activity, Our College decided to conduct individual level activities to inculcate social awareness in students and contribute to our society. Tree Plantation is one of the best activities for making the planet greener, livelier, and healthier. Planted trees help our biodiversity, ensure the supply of oxygen for the next generations, and provide us with various resources. Life could not exist on Earth without trees because they produce most of the oxygen that humans and wildlife breathe.
